AVINASH

Mangalore avinash2004avii@gmail.com 7483744164 AVINASH AVINASH

Professional Summary

Aspiring Data Science and Software Developer skilled in Python, SQL, Machine Learning, and web development, with hands-on experience through a Data Science and AI/ML internship. Proficient in data analysis, visualization, and developing solutions for real-world problems.

Education

Karavali Institute Of Technology, Mangalore *2022 – 2026*
BE in Computer Science and Engineering
CGPA : 8.25/10

Government Junior PU College, Chikmagalur *2020 – 2022*
2nd PUC, DPUE
Percentage : 65.6/100

Vani English Medium High ,Belthangady *2019 – 2020*
SSLC, KSEEB
Percentage : 80.96/100

Projects

Machine Learning-Based Student Performance Analysis and Prediction

- Developed a machine learning-based student performance prediction system using Python and data analysis techniques.
- Performed data preprocessing, visualization, and model training to analyze factors affecting student academic performance.
- Implemented machine learning models for prediction analysis.
- Tools & Technologies: Python, Pandas, NumPy, Matplotlib, Scikit-learn, SQL

Pharmacy Supply Management System

- Developed a pharmacy supply management system using Python, SQL, and Java for real-time stock monitoring, supplier coordination, and inventory management.
- Tools: Python, Java, SQL, HTML, CSS, JavaScript

Multistock Logistics: Unified Rental, Storage and Stock Management

- Built a unified logistics platform using Python and SQL to manage rentals, storage, and inventory in real time.
- Implemented modules for item tracking, warehouse allocation, rental management, and automated updates using Python, Java, and SQL.
- Designed a web interface with alerts, reminders, and transaction logs to streamline logistics operations.

Internship Experience

Data Science & AI/ML Intern – ERA Foundation / Comedkares , Mangalore — Feb - May 2026

- Worked on data preprocessing, visualization, and machine learning concepts.
- Gained hands-on experience in Python, SQL, and AI/ML workflows.
- Participated in real-time project tasks and collaborative development activities.

Python Intern – System Tron (Online) — Oct 2025

- Successfully completed a 4-week online internship focused on Python programming, coding tasks, and hands-on assignments.
- Gained practical experience in core Python concepts and problem-solving techniques.

Skills/Technologies

Programming Languages: Python (Pandas, NumPy), C, C++
Web Development: HTML, CSS, JavaScript
Database Management: MySQL, SQLAlchemy, Query Optimization
Problem Solving & Analysis: Strong analytical and debugging skills

Certificates

Infosys Springboard Courses Certificate *Infosys Springboard,jun-sep 2025*
Completed courses in Python, HTML, AI, and Machine Learning.

Career Essential in Generative AI Certificate *Microsoft & Linkedin 2024*
Completed Career Essentials in Generative AI by Microsoft and LinkedIn.

Additional Information

Languages: English, Kannada, Hindi, Tamil, Tulu
Hobby: Photo and Video Editing, Browsing the Internet, Playing Games
